

# LIGHTS OUT

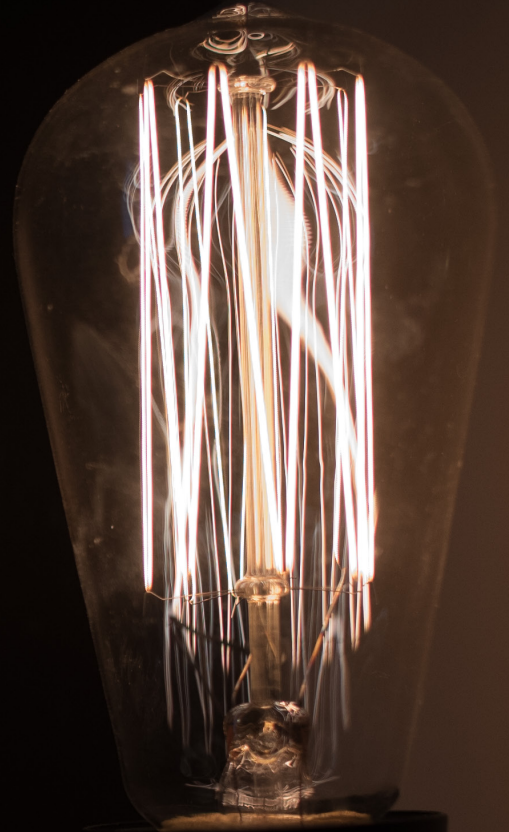

**THE POWER TO  
SAVE IS ALL  
AROUND YOU.**

**Switch off the lights when  
you're finished in a room.**

Even if it's just for a moment, you're still saving energy. If you don't know where the right switches are, just ask.

**Don't forget about natural light.**

Pull up blinds and move things away from windows to let as much light in as possible.
